

Product Range	Product Type	Applications
Azophoska (13-13-20-2 + Micro)	Granular	An all-purpose fertiliser specially formulated for boosting up and sustaining plant growth, and enhancing flowering and fruiting.
Triple Super Start (8-15-8 + Organic)	Granular	A complete plant feed containing all the required nutritional elements a plant requires for root growth and initial development
Green Master (18-0-0 + Micro)	Granular	A fertiliser that provides a plant with the nutritional requirement for early growth and development of foliage.
SuperGro (12-8-15 + Growth promoters)	Granular	A special formulation of fertiliser containing well-balanced nutrients to initiate flowering of plants, to increase yield and enhance the quality of flowers and fruits. SuperGro is also suitable for the blooming of lawn and turf.
Agrifeed 10-10-27+M (P) Agrifeed 11-33-18+M (P) Agrifeed 15-15-15+M (P) Agrifeed 20-8-24+M (P) Agrifeed 5-20-30+M (P)	Powder	A range of fertilisers that contains Nitrogen, Phosphorus and Potassium (NPK) in varying ratios as well as micronutrients carefully selected to meet the nutritive requirements of numerous crops at their different developmental stages. AGRIFEED can also be used in “fertigation” (fert-irrigation) and foliar feeding of plants to increase yields and improve yield quality. Recommended Crops: <ul style="list-style-type: none"> - Ornamental plants such as Roses, Orchids, Anthurium, gerbera etc. - Vegetables such as Tomatoes, Carrots, Chillies, Potatoes, Lettuces etc.
<p>Straight Fertilisers:</p> <p>Calcium Nitrate</p> <p>Magnesium Sulphate</p> <p>Potassium Sulphate</p> <p>Monopotassium phosphate (MKP)</p> <p>Potassium Nitrate</p> <p>MAP Pure</p> <p>Oligo mix</p> <p>Iron Chelate</p>	<p>Prills</p> <p>Powder</p>	<p>Straight Fertilisers are recommended for use in fertigation, with soilless culture and hydroponics to provide optimum consumption of nutrients by plants.</p>
<p>Alga 300 15-4-5</p> <p>Alga 300 5-15-4</p> <p>Alga 300 5-4-15</p> <p>Alga 300 8-8-8</p> <p>Vegeflor 4-4-8 + M</p> <p>Vegeflor 8-6-6 + M</p> <p>Vegeflor 6-5-9 + M</p> <p>Vegeflor 9-3-3 + M</p> <p>Vegeflor 11-7-7 + M</p>	Liquid	<p>This range is recommended for use in households and nurseries with potted plants, flowers such as Roses, Orchids, Anthurium, Gerbera etc..., as well as other decorative plants and vegetables.</p>
